Need A Lot More & Strategically Placed EV Charging Infrastructure

- Let’s end range anxiety – in reality and perception
- Strategic locations: workplaces, multi-unit dwellings, shopping centers, highway rest stops
- In low-income neighborhoods
- At transit bus hubs
How to Get to “A Lot”

- Bold New State/Regional Policies
- Major utility investment
- VW settlement $$
Strong Coordination is Essential

- Need all the players talking to/planning with each other
- ZEV Commissions – state created or “make your own”
- NESCAUM coordination a great example
- Utilities & transit agencies need more coordination
