Coordinating Multiple Charging Investments
The Greenlining Institute

Vision

We envision a nation where communities of color thrive and race is never a barrier to economic opportunity

Redlining

25 years fighting racial and economic injustices caused by discriminatory redlining

Greenlining

Advocacy, policy, research, coalition building, and leadership development aimed at greenlining historically disinvested communities of color with investments and opportunity
Equity

- The fair and just distribution of societal benefits and burdens
- The ability of marginalized communities to influence decisions in a way that addresses their needs and concerns.
Why?

- Between private and public investments, must make sure benefits are felt by all communities
- Investments should compliment each other
- Community-input need to identify investment priorities
Coordination

- Inventory of existing and future vehicle and infrastructure investments
- Community engagement
- Assessment
