Leading the Way to Seamless Mobility

Karen Giese, P.E.
Smart Cities Program Manager
Siemens Mobility
“The next Mobility revolution” is happening now and is based on digital solutions.

Today
- Owned
- Stand-alone
- Combustion
- Driver

Tomorrow
- Shared Fleet
- Connected
- Electric
- Autonomous
Our vision – build a mobility operating for smart cities based on data driven application from simulation to intervention
Autonomous
Empowering new business models for public and private mobility services
Connected
Enabling autonomous vehicles and prevent 80% of the vehicle accidents
Electric

Thinking beyond infrastructure and make cities e-vehicle ready
Shared
Moving people from A to Z through multimodal trips seamlessly planned and paid in one app
